

BI-Analyst Fleet Performance (m/f/d)

PETER DÖHLE Schiffahrts-KG is a provider of global maritime services with roots in Hamburg and home ports all over the world. We see ourselves as a group of companies rich in tradition yet future-oriented, providing tailor-made solutions for the entire shipping industry. To support our **Shipmanagement** at the next possible time, we are looking for a BI-Analyst for the Fleet Performance Team (m/f/d).

Your tasks and responsibilities:

- Analysing the data requirements and the data itself used in the fleet performance department and in the ship management
- Creating standard reports and ad-hoc queries supported by modern software tools, mainly Tableau but as well MS-Office and other software tools
- Creating and maintaining dashboards to be used in the fleet performance department as well in the overall ship management
- Driving the implementation and further development of Tableau modules and dashboards in cooperation with fleet performance manager and superintendents
- Analysing operational ship data and screening data to ensure data quality
- Identify data trends that have an impact on ship performance and effective operation
- Correcting operational ship data in the corresponding reporting system and on data base level in cooperation with the ship's crew and the IT department
- Being part of the fleet performance team

Preferable qualifications and requirements:

- Degree in economics or business informatics, alternatively comparable qualification with relevant professional experience using Tableau or equivalent BI tools
- Interest in working as a team with interfaces to the ship management, the ships themselves and other internal departments such as IT and controlling
- High IT affinity and interest in optimising and automating processes and existing structures
- Enjoyment of working with a variety of data and being included to cross-functional projects
- Experience in shipping or ship management not primary required but preferred
- Confident handling of the following tools:
 - MS-Office, especially Excel
 - Tableau
- Strong communication skills with fluency in English and preferably German

What we offer you:

A challenging and varied job with a lot of (personal) responsibility

A pleasant working atmosphere in a highly motivated, dynamic team as well as individual perspectives for further development

An exclusive working environment at the Elbe with an in-house fitness area and company restaurant

Would you like to make a difference with us?

We are looking forward to receiving your application via email including your earliest date of joining and your salary expectation.
